The 18/10 AISI 304 stainless steel tanks are continuous-welded with rounded corners for easy cleaning and sanitation. The used oil outlet system is simple and safe with an oil collection tank with stainless steel filter. All models have safety thermostat and thermostatic temperature control to keep the oil temperature within safety parameters.

Gas versions: models available with direct heating via heating elements in the tank or with indirect heating via a burner outside the V-shaped tank, which guarantees excellent cleaning.
